Welcome@OakSecurity.com

Oak Security Group is proud to introduce the new Classroom Security Lock featuring the *Directional Indicator*.

- Our Classroom Security Lock allows the outside lever to be locked with a key from the secure (inside) side of the door. There is no need to open the door to ensure the exterior lever is locked.
- In addition, our Classroom Security Lock has a visual indicator on the rose assembly (see picture) showing which way the key must be turned to securely lock the outside lever.

For additional information or to speak to a Sales Representative please call our toll-free number (877) 674-5625.
